**Notes:**

- In accordance with the NTU official letter Hsiao Jen Tzu No. 1010101392 dated 2013.01.02, when a full-time faculty member takes a position as a co-investigator or assistant investigator in a government commissioned research project at another school or private institution, if the contract cannot be signed in the name of the University, the faculty member must get the approval of the University before taking the position.
- If a full-time faculty member of the University applies for or accepts a position (such as principal investigator) on a commissioned research project, they shall carry out the procedures prescribed by NTU's Office of Research and Development and are not required to fill out this form.
- If a full-time faculty member of the University accepts a concurrent position at a for-profit institution or group which is undertaking a government commissioned research project, they may only take on that position on the research project.
- This form applies only to full-time faculty members (research fellows) seeking to hold a position in an external research project. Applicants seeking to work part-time at a governmental or non-governmental organization should fill out either the Application for Full-Time Faculty Members (Research Fellows) Holding Concurrent Positions at a Governmental Organization or the Application for Full-Time Faculty Members (Research Fellows) Holding Concurrent Positions at a Non-Governmental Organization, depending on the circumstances.
